## 43 Killed In Crash Of United Airliner

### Plane Hits Power Line, Explodes

Mt. Carmel, Pa., June 17—(AP)—A four-engine United Airlines plane hit a power line and disintegrated in flames today, killing all 43 persons aboard. An eyewitness said "the whole scene looked like a living hell."

Among passengers on the coast-to-coast plane were Earl Carroll, famous theatrical producer; Mrs. Jack Calkins, divorced wife of the film comedian; actress Beryl Wallace and two infants.

DC-6 planes were ordered out of the air after a fatal crash in Utah and a near-wreck in New Mexico last year. The plane was allowed back in the air last March 15 after being grounded for five months.

Time of the crash was fixed with complete accuracy as a clock at the Midway colliery of the Jeddo-Highland Coal company stopped, its wires slashed in the crash.

Franklin Kane, city editor of the Ashland (Pa.) News, one of the first persons to reach the spot, described what he saw as "a scene of devastation and death."

Harry Stibitz said he was standing about 50 feet from the power line when the plane struck it. "I turned to look up," he said, "and saw a mass of fire, explosions, plane wreckage and bodies hurtling through the air."

"Flames and smoke flew about 90 feet in the air. The whole scene looked like a living hell."

Two and a half hours after the crash, coroner John Evans said 16 bodies had been recovered.

"We don't expect to get any more," he said.

Ed Darlington of radio station WCNR at nearby Bloomsburg said "there was no sign of life and apparently everyone was killed."

He said "bodies and arms and legs were strewn all over the place. The plane just broke up into little pieces. One of the engines was the biggest thing left."

State police said the plane burst into flames after hitting the wire which carried 60,000 volts and then careened 200 feet into the hills.

They said the pilot, Captain George Warner, Jr., of (124 N. Adams St.) Westmont, Ill., was attempting to pancake the plane on a long, wide smooth bed of coal dirt when he hit the transformer.

## Congress Accepts Compromise Bill Admitting Aliens

Washington, June 17—(AP)—Senate-House conferees agreed tonight on a compromise bill to let 205,000 homeless Europeans into this country during the next two years.

The bill, which now goes back to both Houses for final action, also would allow up to 15,000 aliens now residing in this country to remain as permanent residents.

Two of the seven House conferees and two of the five Senate conferees approved the compromise, which eases some of the restrictions voted earlier by the Senate but retains others.

As approved by a majority of the conferees, the bill provides for the entry of 200,000 "eligible" displaced persons, 2,000 persons who fled Czechoslovakia after the communists took over, and 3,000 orphans under 16.

They kept the Senate provision that "eligible" D.P.'s are those who entered German or Austrian occupation zones before Dec. 22, 1945.

Rep. Celler (D-N.Y.), one of the conferees, said this requirement "completely settles" the bill because it "removes from eligibility" most of the displaced Jews.

Many Jews arrived in the occupation zones early in 1946.

Rep. Celler and Rep. Boggs (R-Del.) were the House members who refused to sign the report.

The compromise also provides that at least 40 per cent of the 200,000 shall come from areas which have been annexed by a foreign country. In practice, this means from Lithuania, Latvia, Estonia and Eastern Poland.

**\$800,000 KITT**  
Philadelphia, June 17—(AP)—Republicans will have \$800,000 in the kitty to start their campaign after they pick a presidential ticket.

James S. Kemper, national committee treasurer, made this statement to the committee today as it met to receive pre-convention reports and hear delegate contacts.

## Kuhn Recaptured 4 Months After Escape From Dachau

Munich, June 17—(AP)—Fritz Kuhn, deported German-American Bund chief, was recaptured while trying to get a license to operate a chemist's laboratory, police disclosed today.

Kuhn was seized two days ago in the French zone town of Bernkastel near Trier four and a half months after he escaped from Dachau internment camp where he was awaiting trial before a German denazification court.

He faces 10 years at hard labor, the sentence the court handed down in his absence on April 20.

Kuhn said today he considered the 10 year sentence as a "major Nazi offender" was unfair and that he intended to appeal it.

How Kuhn escaped has never been officially explained, although there was an investigation, and the camp director, Anton Zirngibl, was fired.

Kuhn's wife, 49, daughter Anne, 23, and son Walter, 20, live in a Munich suburb.

Police reports said Kuhn was arrested when he gave his name as G. Kuhn of Munich in applying for the chemist's license. The similarity of the name, the address and appearance caused suspicion to be raised. He was identified by fingerprints and brought to Munich for questioning. There he denied using the name Kuhn.

Kuhn said he was trying to get the license to make an "honest" living.

The 52-year-old Kuhn was convicted in the United States on charges of embezzling Bund funds and deported to Germany in December, 1945. He worked as a chemist for more than a year before German authorities arrested him to await denazification trial.

**NEW RECORD CHANGER PERMITS FOUR HOURS OF CONTINUOUS MUSIC**

Chicago, June 17—(AP)—A new record changer which permits four hours of continuous playing on a single loading of a new type record was demonstrated here today.

The changer was shown by the Magnavox company, manufacturer of radios and radio combinations, at the annual convention of the National Association of Music Merchants.

Frank Friemann, executive vice-president of the company, said Magnavox instruments equipped with the new record changer will shortly be placed on the market. There has been no announcement concerning the new type records which the new changer will play.

**Three Survive Canoe Mishap; Companion Drowns**

International Falls, Minn., June 17—(AP)—Survivors of a canoe mishap on the icy waters of Keweenaw Lake, Ontario, arrived here today and told of the death of Ralph C. McElvain, about 45, president of the Morris Coal and Mining Co. of Morris, Ill.

The survivors—Ed Ongstad, Marcel Minn., and Max Goulet, International Falls—left here with McElvain on a fishing trip. They went by seaplane to Keweenaw Lake, 300 miles north of here.

Goulet said their canoe was upset by a sudden squall, pitching all three men into the water. They clung to the sides of their canoe and were kept afloat by life preservers.

McElvain, he said, weakened quickly and was swept away by waves. Provincial police recovered his body yesterday. Goulet and Ongstad retained their grip on the canoe and made their way to shore after six hours in the water.

The accident took place Saturday, and McElvain's body was flown to Sioux Lookout, Ontario. From there it was returned to Morris for burial. The fishing party left here June 10.

**U. OF I. Professor Among Victims Of DC-6 Crackup**

Champaign, Ill., June 17—(AP)—A professor of business English at the University of Illinois, in route to a sorority meeting in Massachusetts, was one of 43 persons killed in the crash of the United Airlines transport plane in Pennsylvania.

She was Mrs. Alka Gwinn Saunders, 61, a teacher at the University of Illinois for the last 32 years. She was en route to Swampscott, Mass., for a meeting of Delta Gamma sorority. She had been editor of Anchor, the sorority magazine, since 1935. The convention is to be held June 22-24.

The daughter of O. M. and Sarah Wells Gwinn, she was a native of Oakland, Ill. She received her master's degree at the U. of I. in 1910. She had taught summer school classes at the University of California at Los Angeles, 1921-22; Hunter College, New York City, 1933; and the University of Texas, Austin, 1938-41.

**DOUGLAS ENDS TOUR**  
Rockford, Ill., June 17—(AP)—Paul H. Douglas, Democratic candidate for U.S. Senate, tonight ended a three-day tour of Winnebago county. He played himself to work for better labor conditions.

**WARSAW GROWS AGAIN**  
Warsaw, Poland—(AP)—Although war-ravaged Warsaw has an acute housing problem, Poles still are flocking into the capital from all parts of the nation. The city's population is 588,771. Its pre-war figure was 1,288,000.

Perfumers unanimously agree that all the fabulously expensive perfumes on the market, none equals the pure scent of flowers from the Warsaw district.

## Senate Passes Long Range Farm Support Program

Washington, June 17—(AP)—A long range program for federal price supports on farm products passed the Senate late tonight, but its fate was uncertain.

The vote on final passage was 79 to 3 with only Senators Ecton (R-Mont.), O'Daniel (D-Tex.) and Williams (R-Del.) voting no.

The bill now must go to conference with the House, for adjustment with an entirely different version. The House has passed an 18 month stopgap extension of present government price supports, which expire December 31.

A stopgap extension failed in the Senate tonight, 55 to 27, after bitter debate.

Under the present program the government supports prices of major farm products, in most cases at 90 per cent of "parity." It does this by buying up the crops, or by granting loans enabling farmers to hold them off the market.

Under the proposed long range program, the parity price formula would be revised, and prices supported at varying percentages of parity, depending on the supply of the product.

Senator Russell (D-Ga.) offered the House bill, with some amendments, as a substitute for the complicated long range program being pushed by the Senate agriculture committee.

Senator Aiken (R-Vt.), floor manager for the long range bill, opposed the Russell substitute as liable to kill off chances for any permanent farm program.

**Rescuers Stunned By Desolation At Crash Scene**

Mt. Carmel, Pa., June 17—(AP)—There is no such thing as a whole body in the desolation left by the crash of a United Airlines plane in this little mining community.

Legs, arms, fingers, heads were strewn about leaving a hopeless task for coroner John Evans. A shocked Rev. P. J. Phelan, of nearby Centerville, walked among the victims, or what was left of them—trying to find enough over which to administer final rites.

A tattered sheet the flaming area of more than an acre of new land were articles that only minutes earlier adorned the personages of living people. Watches, rings, bracelets, articles of clothing were gathered up by somber, awe-stricken spectators.

Visibly shaken were the 80 workers who came close to death when the stricken plane barely missed crashing into a colliery breaker in which they were working.

Capt. George Warner, Jr., pilot of the ill fated plane crashed after veering away from the breaker which extended 265 feet into the air. George Bolch, Sr., 47, of Wilburton, Pa., was operating a mine locomotive with Jack Bradley, of Catawba, Pa., when he saw the plane coming in about 100 feet from the ground.

"I sure was afraid when he winged over my head. After he hit it was quiet except for the licking of flames. That was just about the worst thing I ever saw."

Underneath, workers poked awkwardly into the debris on the side of a coal mountain in a search for the bodies.

There doesn't seem to be a single body, said John Lagaz, a sweating constable. He stepped gingerly to avoid pieces of flesh and bone strewn over the landscape.

**Turner Acquitted Of Murdering His 'Best Friend'**

Lincoln, Ill., June 17—(AP)—A circuit court jury today acquitted Ben H. Turner of a charge of murdering his "best friend," Wesley Rhody, 40-year-old Lincoln cattle truck operator.

The jury of six men and six women deliberated more than four hours after receiving the case from Judge Frank S. Bevan.

Turner, 49, a livestock insurance salesman of Princeton, Ill., showed no emotion when the verdict was read but afterwards told reporters "it was all going on inside of me." He shook hands with each juror.

Turner's wife, May, burst into tears.

Turner testified that Rhody waved a gun at him and was "out of his mind" during a wild automobile trip from Macomb Nov. 18. Rhody's body was found by a group of hunters on a highway near Lincoln that night. The car struck the body.

The defendant said that in a scuffle over the gun two shots were fired the first by Rhody and the second by himself.

During the 10 day trial, the prosecution did not assign a motive for its charge of "cold blooded murder."

## Congress Threatens To Kill Draft, Other Major Bills

### Stassen Expects Ninth Vote Win May Remain In Session After Recess

Philadelphia, June 17—(AP)—Convention-conscious Philadelphia heard Harold E. Stassen roar into town today behind a horn-blowing motorcade.

The sandy-haired Minnesotan precipitated an immediate controversy over who would receive the Republican presidential nomination and on what ballot.

He told an early morning news conference that he would be third man on the first ballot but repeated he would win by the ninth.

Camps of other major contenders immediately challenged this.

Supporters of Gov. Thomas E. Dewey predicted nomination of the New Yorker on an "early ballot."

Backers of Senator Robert A. Taft claimed that while the Ohioan and Dewey would be about equal on the first ballot, Taft would show greater "reserve strength" and would go on to victory on or before the seventh roll call.

With delegates and party big-wigs arriving in increasing numbers for the national convention starting Monday, there were other developments outside the realm of personalities. For example:

1—A platform committee was organized under the chairmanship of Senator Henry Cabot Lodge Jr. of Massachusetts. It immediately ran into a row over the civil rights and race issue. Until now, this has been more or less an exclusive intraparty squabble with the Democrats.

2—Alf M. Landon, the GOP 1936 presidential candidate, told a reporter the Republicans should pick a 1948 standard bearer who is "thoroughly in agreement" with the record of the GOP Congress. Landon declined to say who he favored, but friends indicated as of now he leans toward Senator Taft, House Speaker Joseph W. Martin of Massachusetts, and Gov. Dewey, in that order.

3—The party's national committee began hearing five delegate seating contests in mid-afternoon after deciding a sixth—from Maryland—would have to be settled by the Maryland delegation itself. The free state picked 20 delegates instead of the allotted 18. Jacob France, national committeeman, promised the issue would be settled by the delegation Monday morning.

Senator Taft (R-Ohio), chairman of the GOP policy committee, agreed with Martin that the prospects are "somewhat doubtful right now."

Taft said Congress will remain in session, taking a recess for the Republican national convention next week, if an attempt is made to kill the draft by filibuster.

Senator Taylor (D-Iaho) already had announced intention of staying just such a filibuster in an attempt to talk the draft to death.

**Public Housing, Slum Clearance Rejected In House**

Washington, June 17—(AP)—The Republican-dominated Congress made a final attempt today to agree on a housing bill at this session.

The House banking committee approved, 15 to 11, a measure stripped of public housing and slum clearance provisions.

Debate on the draft and other questions kept the housing bill from coming up for a vote right away.

And there was no certainty that the Senate would accept the House bill in any event.

The Senate already has passed the Taft-Ellender-Wagner bill which among other things would let the government pay for some slum clearance projects and finance 500,000 low-rent homes, to be owned by public agencies.

The House rules committee refused yesterday to let a similar measure go before the House. Opponents, including Chairman Wolcott (R-Mich.) of the House banking committee, charged that the bill was socialist.

The bill okayed by the banking committee today was produced by Wolcott as a substitute.

It would renew government mortgage insurance on new homes, up to 90 per cent of value. It also would give priority to veterans in buying war-built houses owned by the government. And, indirectly, it would cut taxes for investors in rental housing.

**Publishers Amend 'Final' Contract Offer To Printers**

Chicago, June 17—(AP)—Chicago newspaper publishers today amended a "final" contract offer to striking printers.

The publishers met today with Woodruff Randolph, president of the International Typographical union, to amend a claim by Randolph that the proposal as originally offered would "dismember or destroy" the union.

The publishers' "final" proposal made several weeks ago offered a 49 weekly wage boost and set a June 7 deadline on acceptance.

However, the publishers and the union officials have held several meetings since that date in an effort to end the strike.

A union spokesman said after today's meeting that there would be another meeting "after we have had a chance to study their new proposal."

There was no hint given as to how the publishers amended their offer. However, a publishers' spokesman said these clauses of the offer were "clarified":

That if nonunionists are hired, they must first have had six years experience at the trade; an agreement to a joint apprenticeship committee; an agreement not to use substitutes for typesetting processes throughout the life of the contract so long as normal operation prevails; and an agreement to submit all contract disputes to arbitration.

**3 KILLED**  
Gate City, Va., June 17—(AP)—A speeding automobile cut a swath of death through a group of pedestrians returning from a church service near Lancaster, Va., about three miles north of here last night, leaving three persons dead and six injured.

## Action On Housing Bill Blocked By GOP: Truman

Accuses Party Of Restricting House Action

Aboard Truman Train En Route to Washington, June 17—(AP)—President Truman tonight accused the Republican leadership of restricting the House to action on only "emaculated housing legislation."

The President made his accusation at Indianapolis in the course of a speech to an audience drawn up around his private car.

"It will be tragic if the comprehensive housing legislation which has been so long considered and which has come to the verge of final passage should be blocked by parliamentary devices which thwart the Democratic process," he said.

"But if this is to be the case, the American people should know just how it was done and by whom," he added.

The President said: "The Republican leadership has thus deceived that the House shall vote only upon the emaculated housing legislation which the Republican leadership wants, and that it shall never be allowed to vote upon the kind of housing legislation which the people of this country need and want."

Earlier, in a speech at East St. Louis, Ill., the President snapped back at Congress for overriding his vetoes, and threatened new ones and accused legislators of "hunting for a boom and a bust."

Police Inspector Leo Troutman estimated the audience in Indianapolis at 4,500.

The President's statement was distributed to newsmen aboard his special train as it pulled into the Indianapolis station at about 6:12 p.m. (CST). He read the statement to the crowd below the railroad viaduct and added that the rules committee "bottled" up the long range housing bill after the House banking committee with the aid of "three forward-looking Republicans" reported it out.

"I don't think you people ought to stand for that," he said.

He said he hoped the people "will profit by the lesson" they learned by staying away from the polls in 1946 when the present Congress was elected.

**New Thermometer Registers Heat By Measuring 'Noise'**

Chicago, June 17—(AP)—A thermometer that can register super heat or cold by tuning in on the "noise" of molecules has been developed by two young physicists at the University of Chicago's institute of metals.

The device has a range from a fraction of a degree above absolute zero (-273 degrees Fahrenheit) to 5,000 degrees Fahrenheit.

A piece of tungsten wire is a principal feature of the thermometer. Tungsten has the highest melting point (6098 degrees Fahrenheit) of any metallic element.

At absolute zero, the molecules in the wire—and in all other matter—are motionless. As the temperature increases the activity of the molecules begins. The higher the temperature, the faster the movement.

Collisions inside the wire between molecules and free electrons set up small electrical impulses. The thermometer amplifies these impulses and measures them.

The inventors are Drs. John B. Garrison, 27, and Andrew W. Larson, 31.

A shock absorber which is permitted to become stiff or unloosened will cause an automobile to pull to the right or left.

**Listeners Must Choose Between GOP And Louis**

Washington, June 17—(AP)—You've got to make up your mind by next Wednesday night.

Then tune in your radio. Which will it be?

The Louisville-Walton heavyweight championship fight or the Republican presidential nominating session? They're on at exactly the same time.

No indecision now. No nervous punching of first one station button, then another. Because if you do, you're likely to hear something like this:

"... that fearless statesman, that grand American, that undaunted champion..."

"... comes out of his corner, crouching like a hungry panther. He nervously flicks out a left at the..."

"... reciprocal trade agreements act. We must take the stand, we will take the stand, that any such revision must conform to..."

"... rules of the New York Athletic Commission. Here comes a long looping left from Jersey Joe. It staggered the champ for a moment but he's..."

"... boring from within, cutting away the American heritage which..."

"... he's down, he's up, he's down, he's up..."

"... up from the icy shadows of Valley Forge, where our forefathers fought the battle of..."

"The battle of the century, folks! It looks like Joe..."

"... may pick up Pennsylvania and most of the California delegation on the third ballot, but..."

"... only a few seconds until the bell..."

"We will not be frightened by the grimaces of any potential enemy. We stand four-square for..."

"... a good solid right to the kisser. It has the big boy in the purple trunks pawing limply at..."

"... Senator Taft and Governor Dewey. Any moment now the great decision may be made, and..."

"... present the winner and new champion..."

"With to thank my loyal supporters for this..."

"Hello, maw! I'm glad I won!"

The life span of an American patient is 17 years.

## Democrats Elated With Taft's Crack At 'Whistle Stops'

Washington, June 17—(AP)—The Democrats think they have caught Senator Robert A. Taft off base with his crack that President Truman is "black-guarding Congress at every whistle stop in the west."

From the Democratic National committee today came this press announcement:

"Mayors and chambers of commerce of thriving, patriotic, progressive, modern, civic-minded, attractive and prosperous American municipalities recently described by Senator Robert A. Taft (R-Ohio) as 'whistle stops' are being polled to determine whether they agree with Taft's unflattering description of their homes..."

"Mayors and chambers of commerce were sent this telegram: 'Please wire the Democratic National committee whether you agree with Senator Taft's description of your town as a quote whistle stop end quote.'"

Among the places getting "whistle stop" queries are Los Angeles (p. 2, 904,586 met. dist. 1940 census); San Francisco (4,428,525); Chicago (4,499,126); Seattle (452,630); Spokane (141,370); Portland (406,406).

But the 18-through-35 draft bill took the center of the stage and raised congressional passions some times to the screaming point.

**House Votes Delay**  
Mustering far more strength than they thought they had, House foes of the already riddled measure rammed through an amendment which would postpone the first inductions at least until the end of next January—long after election day.

The strength of the curb-the-draft forces, a strange coalition including Henry A. Wallace backers and their bitter foes, was so great that some predicted the entire bill might be defeated. If the bill passed, there was a question whether the Senate would accept so watered-down a measure.

During the crowded day, the Senate completed congressional action on the \$3,749,069,250 war appropriation bill and sent it to the White House.

A joint Senate-House conference committee, however, failed to reach any accord on the \$6,000,000 foreign aid bill. One of the principal differences between the Senate and House versions is whether the funds must last 12 or 15 months. The Senate voted to allow the money all to be spent in one year.

**Green Dedicates Veteran Memorial**

Springfield, Ill., June 17—(AP)—A granite and bronze monument commemorating service of Illinois volunteer regiments in the Spanish-American war was dedicated by Governor Green today.

Green praised the "valiant patriotism" of the state's soldiers and sailors.

They were men, he said, who "unhesitatingly put aside personal ambition" to fight for their country.

Hundreds of Spanish war veterans here for their annual encampment looked on as the \$75,000 state memorial was unveiled by the governor's 17-year-old daughter, Gloria.

**BATHING BEACH**  
Springfield, Ill., June 17—(AP)—The first bathing beach unit of the state's new Illinois beach park on Lake Michigan north of Waukegan will be formally opened Sunday.

The 1,000 foot beach is one of 10 planned by the state on the 1,300-acre tract which stretches along three and one half miles of shoreline.

**WEATHER**  
The Norbury Sanatorium, cooperative observer for the U. S. Weather Bureau, yesterday reported official temperatures for Thursday as, low, 51; high, 76; and at 7 p.m., 70. Rain-fall, .04.

ILLINOIS—Cloudy with showers and occasional showers today. Not much change in temperature.

## DIPLOMATS ON THE DOMESTIC FRONT

If we were Secretary of State, and in need of a high class diplomatic corps, we would raid all the Chambers of Commerce over the country, and come up with a staff of experienced men who know how to handle people.

We have watched a number of these gentlemen in action. They serve their home communities with distinction. They are loyal, tactful masters of difficult situations. We have seen secretaries of commercial organizations control their temper when the going got rough. When someone around the conference table became impetuous and "blew his top," we have seen Chamber of Commerce secretaries hold their fire. Usually, while the smoke of battle still filled the air, a level-headed secretary stepped in to restore order among the warring factions.

These secretaries who are an integral part of community life in Illinois, and other states where Chambers of Commerce function as clearing houses for community activities, are trained to get along with people—to direct organized efforts toward building up and promoting the interests of their particular areas. The job is tough, but men have been developed for this line of work. Chamber of Commerce secretaries today are selected by boards of directors with the same exacting standards as boards of education choose superintendents for their schools, or corporations engage general managers to conduct their affairs.

About 75 of these men who carry the interests of their various communities on their shoulders are meeting in Jacksonville this week end to discuss mutual problems. The annual convention of the Illinois Commercial Secretaries Association attracts men from all the larger communities—executives with progressiveness and vision. Each secretary is working for the interest of his own city and organization. But all of these cities are in Illinois, and Illinois will profit by the concerted endeavors of intelligent promotion. More industries, expanded trade areas, better living conditions are the goal of all up-and-coming cities. With trained men at the helm, executives with temperament to work with people, and inspire people to work together—many communities will attain their goals.

After his Golden Jubilee Solemn High Mass Thursday morning, Father Formaz greeted many of his parishioners and friends who attended the service held at the Church of Our Saviour. Pictured above at his left is Father George Hobbs, a former assistant pastor, who preached the Jubilee sermon.  
In observance of his fiftieth anniversary in the priesthood, the beloved priest who has served his present parish for 47 years, was presented a 1948 Dodge automobile and a substantial purse, gifts from his parishioners and other friends. He received hundreds of telegrams and cards of congratulations as well as many floral tributes to the occasion.

## Armin Fricke Is Appointed Chief Deputy Sheriff

Appointment of Armin Fricke, 1835 Mound avenue, as chief deputy in the sheriff's office was announced Thursday by Sheriff Ralph Bourn. Mr. Fricke succeeds Leo James, who resigned several months ago and moved to Boston, Mass.

During the interval the duties of chief deputy were handled temporarily by Deputy John Brian.  
Mr. Fricke, a former resident of Merced, attended Brown's Business College in this city and attended college in Chicago. He served four years in the Army Medical Corps with the 34th Infantry Division in Europe.

Mr. and Mrs. Fricke are parents of an eight months old daughter.

## One Good Worry Just Leads To Another

New York, June 17.—(P)—The children have a fair argument against the grownups in America.  
The kids are compelled by law to go to school to learn what the adults want to teach them. But there is no law to make the grownups go to a school and learn from the children. Yet there is much they could learn from the diaper-and-knickersbocker set.

Everybody in America, for example, might live longer by studying the lesson unintentionally given by two-year-old Kenneth Lieberman of the Bronx. This bouncing boy tumbled out his apartment window the other day, fell six floors, landed on the lawn with a dull thud and a small grunt—and got up and waddled off unhurt. He didn't even give a whimper of complaint.

How did he escape injury? Because he was relaxed, as all normal children in normal homes are. Thirty Years From You  
But if little Kenneth should have a similar accident thirty years from now, after civilization had gone to work on him, what would happen? He would see death grinning up from the ground at him, his muscles would tighten in fear against the shock, and he'd be picked up in the same condition as a shattered pretzel.

Only a few adults keep this life-saving virtue born in every child—the art of relaxation.

Most champions do. And that is one of the big secrets of why they are champions. They are coordinated because they have the priceless gift of relaxing in the middle of action. That's true of a racehorse like Citation, as it was of Charlie Schwab closing a multi-million dollar steel order. Or, of Babe Ruth, with two strikes on him in a world series game, pointing to the bleachers and knocking the next ball for a home run right where he'd called it. Tension Kills Many

Tension kills more people in the United States than anything except over-eating. And over-eating, in millions of cases, is nothing but a nervous expression of tension. They actually worry themselves fat at the dinner table.

Worry is the most contagious disease yet untamed by science, a world-wide plague spread by a bacillus invisible to any microscope ever invented—fear.

Worry upsets you. Worry is just your insides stirred up and mad at you. A light heart beats the longest. If you tell a baby to worry, he will just yawn and fall asleep. So should we all.

An hour more of sleep each night by everybody would destroy more nervous tension than all the pills or booze in all the bottles ever blown. And you'd get to work on time—there's one more worry gone.

Ecuador is the only South American country whose Pacific coastline the equator cuts across.

## Woman's Society Of Salem Church Has Annual Picnic

The Salem W. S. C. S. held its annual June picnic at the home of Miss Mary Margaret Wax, south of New Berlin. The assistant hostesses were Mrs. Druella Ferguson, Mrs. Marietta Standish and Mrs. Minnie Robinson.

A brief business session was held, with the president, Mrs. Floy Stubbfield, presiding. The worship service was conducted by Mrs. Clara Thompson. Miss Fannie Boyd offered prayer. The pledge to the flag was led by Mrs. Minnie Robson. Mrs. Lucille Newberry read an article on "Christian Women Interested in Alcoholism." The minutes of the 1947 picnic were read by the secretary, Mrs. Marietta Standish.

The program for the afternoon arranged by Mrs. Hazel Thompson, Mrs. Mary Jarvis and Mrs. Crissie Armstrong, included: poem, "Emblem of Freedom," Mrs. Floy Stubbfield; piano selections by Miss Margaret Stubbfield; humorous reading, "What is a Cow?" Miss Fannie Boyd; accordion selections by Mrs. Addie Rawlings; piano selections, Miss Norma Jeanne Standish; and poem, Mrs. Hazel Thompson.

The door prize was awarded to Mrs. Bertha Davies.

Guests at the meeting included Mrs. Bessie Gibson, Miss Margaret Stubbfield, Miss Barbara Thompson, Miss Letha Ann Hamilton, Miss Beverly Griffith, Miss Norma Jeanne Standish, Carl Jarvis, Donald Jarvis, Howard Wilson, Bobby and Paul Young, Dolly and Billy Hunt.

The next meeting will be held at the home of Mrs. Minnie Robson, with Mrs. Margaret Standish, Mrs. Hazel Thompson and Mrs. Hilda Kinnert as assistant hostesses. Mrs. Thompson will also serve as devotional leader. The program will be in the charge of Mrs. Myrtle Matthews and Mrs. Lora Brainer. "A Patriotic Song" will be the topic for roll call.

No Man's Land—a term used during World War I—dates from the 14th century, when No Man's Land was a piece of waste ground outside London, often used for executions.

## RECREATION PROGRAM AT VIRGINIA SCHOOL NOW IN FULL SWING

Virginia—in spite of unfavorable weather conditions, the recreation program, undertaken by the playground association, is progressing nicely.

Between 30 and 50 children are attending the play sessions daily. On rainy days, the children are permitted use of the grade school gymnasium.

Ramona Coleman, who is taking training as an elementary teacher, is assisting Kenny Devlin, head director. Miss Coleman works with the girls and younger children.

The monochrome became fashionable in England in Queen Anne's time.

## State Makes Traffic Count In Jacksonville

Automobile and truck traffic on Jacksonville streets is subject this week to one of the most exhaustive checks that has ever been made. The State Division of Highways has installed a large number of automatic traffic counters to register the number of vehicles that pass certain spots.

State highway employees said the survey is in connection with the newly created commission to study highway requirements in towns and villages. Technically, the survey now in progress is known as a summary of requirements for retiring street

deficiencies. Cities derive considerable amounts of motor fuel tax funds each year for use in permanent street improvements. The state division of highways maintains a close check on the volume of traffic, with a view to future construction.

When your car rolls over one of the black rubber hoses across the street, it means that you have been counted. And if you return over the same route, you are counted again. The passing of each car means something when the engineers pull

up the gauges and jot the figures down in a book.

James Rolfe, husband of Pocahontas, is credited with being the first civilized tobacco grower.

# It's the '49 FORD

It's The Car of the Year!

Today's the day! Yes, it's the day the '49 Ford, "the car of the year," goes on display at Ford Dealer showrooms coast to coast!

There never was an automobile like this before. It's a complete break with the past. It was designed by you... because you told Ford in letters, surveys and personal interviews just what you wanted. And today, it's here. It looks like a luxury car, but it sells in the low-price bracket.

Just for the thrill of it, look at the list of new features. And for an even bigger thrill—your biggest thrill of the year—see the '49 Ford, "the car of the year," at Ford Dealer showrooms today.

*It's here today at your Ford Dealers!*

**NEW** You wanted ROOM. So Ford gives you sofa-wide seats, with lots of hip and shoulder room... and 57% more luggage space, too.

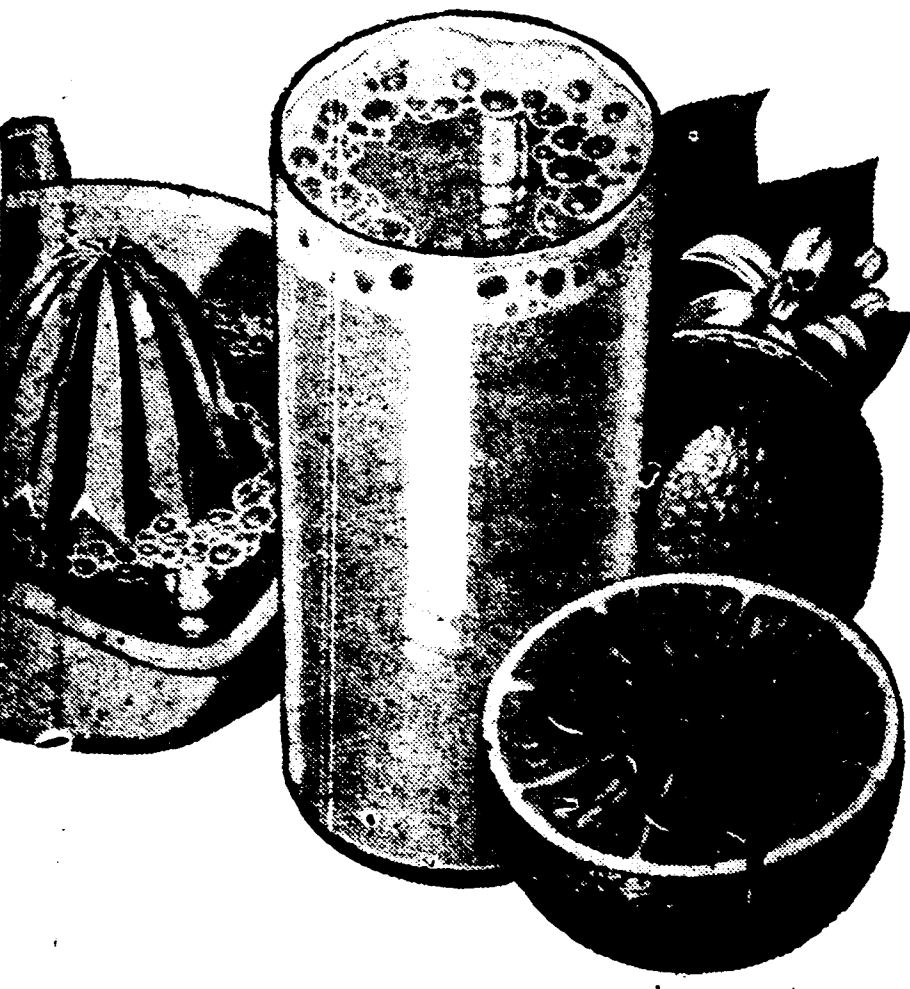

**NEW** You wanted SAFETY. So Ford gives you a 59% more rigid "Life-guard" body and frame structure, 35% easier "Magic Action" King-Size Brakes, and new "Picture Window" Visibility all around.

**NEW** You wanted COMFORT. You get COMFORT... in a new "Mid Ship" Ride... new "Hydra-Coil" Front Springs with shock absorbers built in, new "Para-Flex" Rear Springs, which need no lubrication.

**NEW** You wanted ECONOMY. New V-8 and SIX engines have new lubrication system, new "Equa-Flo" Cooling and "Deep Breath" Manifold. Savings up to 10% on gas. (Even greater savings with new Overdrive, optional at extra cost.)

**NEW** You wanted BEAUTY. Well, see for yourself. You, too, will call Ford "the car of the year!"

White side wall tires, as illustrated, optional at extra cost.

Delicious juice—when it's fresh from the fruit! Fresh orange juice is the richest everyday source of vitamin C... gives you other important vitamins and minerals. No other juice contains so much health in one glass. Buy Sunkist—finest from 14,500 cooperating California and Arizona citrus growers.

## Tornado, Rain, Hail Do Heavy Damage In Nebraska

Chicago, June 17.—P—Rain fell over widely scattered sections of the midwest, south and far west today, with falls in some areas measuring more than two inches.

A thunderstorm hit Mobile, Ala., during the night and the weather

bureau reported a rainfall of 2.21 inches. Heavy falls also were reported at Jacksonville, Fla., and Vicksburg, Miss.

A tornado, rain and hail storm swept the North Platte valley of Nebraska last night and caused thousands of dollars of damage to crops and property.

Other rain areas included parts of Iowa, Minnesota, South Dakota, Montana, Idaho and Washington.

The word "tobacco" is derived from the early West Indian name of the pronged stick, "tobago".

## Devlin Sentenced To 8 Months; Indictment To Be Nolle Prossed

Leonard Devlin, 28 year old war veteran, whose automobile caused the death of Willis Haney here several months ago, pleaded guilty to two charges Thursday in county court and was sentenced to the Illinois State Farm at Joliet for eight months.

A fine of \$125 and costs and revocation of driver's license for one year were included in the penalty on his plea of guilty to driving while intoxicated and leaving the scene of an accident.

A manslaughter indictment in circuit court will be nolle prossed in view of the action taken in county court.

In view of the age of the defendant, his war record, his disability, and considering the circumstances of the accident in which Willis Haney was killed, the state's attorney's office has accepted Devlin's plea of guilty to driving while intoxicated and leaving the scene of an accident. State's Attorney W. L. Fay announced to the court. "The manslaughter indictment against him will be nolle prossed."

The state's attorney recommended that the defendant be sentenced to serve a term of not less than eight months at the penal farm; that his driver's license be revoked for the longest possible time, and that he be ordered to pay a fine of \$125 and costs of the proceedings.

Judge Paul Fenstermaker followed the recommendations in passing sentence.

Devlin, who suffered the loss of one leg while serving with the U. S. Army engineers in the Italian campaign, was accompanied to court by Attorney Edward J. Flynn and Attorney Harry G. Story, who represented him at the brief hearing. No evidence was introduced.

The maximum penalty on each charge is a year in the penal farm and a \$1,000 fine.

Devlin was placed under arrest a short time after Willis Haney, a well known local man, was killed by an automobile early on the morning of April 18 on East State street near the city limits. Later he was released on bond.

An indictment charging him with manslaughter was returned by the grand jury at the May term of court.

**Peoria Man Can Drive Again Arthritis Yields to Rentox**

Mr. A. Freese, 712 N. Perry Ave., Now Free of Pain For 1st Time In 6 Years

"For well over 6 years I have suffered from arthritis so badly I was often unable to work for several weeks at a time. I own an automobile shop and was forced to take on extra help because I couldn't work. The pains in the back of my neck were so severe at times that I couldn't turn my head and was afraid to drive my car. I have tried many well known medicines and have spent a lot of money trying to get relief but nothing gave me any relief. After everything else had failed my wife bought a bottle of Rentox for me to try and before finishing the first bottle the pains were almost completely gone and now my neck isn't stiff even in the mornings. I am now able to drive and to work again. My wife is also taking Rentox and is regaining her appetite and pen. Now feel fine and Mrs. Freese and I both think Rentox is by far the best medicine there is. Rentox has been worth a mil-

lion to me and I would recommend it to anyone."

CONTAINS 26 INGREDIENTS

This great medicine containing 26 splendid ingredients goes to work quickly to relieve the torturing pains of rheumatism and arthritis. Rentox tones the bowels into a more rhythmic action. Gas, bloating, heartburn, sour stomach, and acid indigestion are quickly relieved. Kidney and gall bladder trouble are relieved so that lost sleep from getting up nights is no longer necessary. Dizziness and run down feeling is overcome quickly. Lost appetite and pep return. Rentox may be just what you have been needing to put you on the road to better health. Go to your drug-gist today and get a bottle of Rentox. Be sure you get what you ask for; don't be "switched" to another product.

**Cass Co. Couple Wed Wednesday At Chandlerville**

Chandlerville—In a late afternoon ceremony, which took place Wednesday at 4 p. m. at Salem Lutheran church, Miss Mildred L. Jurgens, daughter of Mr. and Mrs. G. L. Jurgens, and Earl W. Taylor, son of Mr. and Mrs. J. Orville Taylor, were united in marriage.

The vows were performed in a double-ring service received by the Rev. H. H. Koppelman before a flower-banked altar. A thirty-minute organ prelude was presented by Miss Elizabeth Paul. Miss Paul also accompanied the soloist, Miss Virginia Nell Smith of Virginia.

The bride's sister-in-law, Mrs. Elmer Jurgens, was the matron of honor. Miss Joan Meyer and Miss Peggy Devlin were the bridesmaids. Their gowns were similar in design, with Mrs. Jurgens wearing pink, Miss Meyer, yellow, and Miss Devlin, blue. A white organ dress was worn by the small flower girl, Patsy Taylor.

Serving as best man was the bridegroom's brother, Carroll Taylor. Wilson Siltman and Elmer Jurgens, the bride's brothers, were the ushers. The bride, who was escorted to the altar by her father, was attired in the traditional bridal gown of white satin. Her flowers were white carnations.

Following a reception at the home of the bride's parents, the couple left for a short wedding trip. Upon their return, they will reside in Chandlerville.

The bride attended Western State college at Macomb and has taught in rural schools in Cass county for the past two years. Her husband served with the U. S. Army for three and half years and has recently been engaged in farming.

## Reasons To Make A Will Discussed By Judge Watt

L. Allan Watt, county judge of Scott county and a member of the Winchester Kiwanis club, addressed Jacksonville Kiwanians Thursday on the subject of testamentary dispositions of property.

Judge Watt discussed the legal requirements for executing a will, the revocation of wills and the advantages of leaving property by will.

The three main benefits to be obtained by having a will, Judge Watt declared, are first, the selection of a responsible individual or bank to serve as executor; second, the distribution of property in accordance with the desires of the owner; and third, the estate tax savings incident to a proper testamentary distribution of the estate.

Donald Dugan, also a member of the Winchester club, was a guest at the meeting.

Pick extra mileage right out of the air!

EVER wonder how important it is for an engine to be able to breathe easily? Then just consider...

1. An efficient engine wants to "inhale" about 1,450 cubic feet of air with every gallon of gas. That's volume!

2. An eight-cylinder engine "inhales" as many as 240 times (or more) per second. That's frequency!

Now you know why "free-breathing" engine design is so important.

In the great new Packard

Eights, "free-breathing" design involves new streamlined valve design... improved carburetion... higher compression ratios.

And what does all this mean to the motorist? It means "safety-sprint" acceleration. Extra smoothness. And above all—a gain of up to 10% in fuel economy!

Come in—learn how Packard's "free-breathing" engine design lets you burn more sky... less gasoline!

XXXII  
SHE had argued David by defending Tom. She read it in the tightening of his lips, the sudden darkening of his blue eyes, in his tone which was sharp and cutting, unlike his warm, vibrant tone when he told her that he loved her.  
David said, "You talk like a child, Jessica."  
"I'm not a child." She felt an odd resentment. Tom did not consider her a child. Did she appear weak and dependent to David?  
He gave her a quick smile and covered her cold hand with his own. "Look," he said coaxingly. "Can't you see that all this dependence upon you is a trick? Can't you understand that you've allowed your sympathy for this man to run away with you? Look at it this way. Suppose that something had arisen in my own family? Do you believe that I would make that an excuse to postpone our happiness together?"  
"No," she said, and truthfully, for she began to understand that nothing stood in the way of David's wishes or desires; and what she read in his face brought no reassurance. There was something ruthless in his expression as he tried to convince her that she owed nothing to Tom Blake and his family. Nothing whatever!

He spoke fluently and well, presented endless arguments. She had not been nappy, had she? No. She had been miserable and lonely in the house where Tom Blake left her with no thought beyond the fact that she would find shelter with his people. He had shown no consideration for a girl he claimed to love.  
"He's quite different now," she said, surprising herself by the statement and aware that, until this moment, she had not realized how different this grave man, who gently nursed his mother, was from the brash young man who had hung about the drug store in Kentucky hoping to catch a glimpse of her.  
"They're all different," said David unfeelingly, "and why not? Are you going to allow your feelings to run wild because a man has fought overseas?"  
"It isn't that." She felt bewildered, tired, suddenly. This was not what she had expected of this afternoon. She wanted to say: You are different, David. You are not the man who spent the brief times we had together repeating how anxious you were to protect me, care for me. Is this your idea of protection? Persuading me to avoid all obligation, treating me like a child incapable of making a decision?  
David said, "This man is clever enough to play upon your sympathy for him. You met and married him in a moment of infatuation. What do you know about him?"  
What do I know about you, David? she thought unasily.  
Soon she must make a decision. A decision she shrank more and more from making. She would not make it today, she determined. Somehow, first, she must get in touch with Lucy—give Tom someone to keep him company when she left him.  
When she made no answer to David's question, he went on, "Blake must carry his own burden. Suppose that he had not married?"  
"He would have had Lucy," she said slowly. Yes, if Tom had not married, he would have had Lucy. Her entrance into the Blake family was more or less responsible for Lucy's straying from the bath and principles set by her mother. Jessica had tried again and again to persuade Lucy to be different. The girl had lived so long under her mother's dominating influence that, suppose when she tried to escape, she were unable to adjust herself to a different way of living?

David said, "Your husband can hire a nurse to take care of his mother. He can insist that his sister return and take a job in Akron." His voice became impatient. "Look, are we going to continue to quarrel over Tom Blake? Do you realize that the afternoon is half gone and we haven't talked about anything but your husband and his family? Is that what you looked forward to today, Jessica?"  
She confessed that David was right. She had looked forward eagerly, not to this, but to hours spent as she and David had spent other times, happy, carefree. She forced herself to try to recapture the gay mood in which she had set out after leaving Betsy with Doris. She tried to concentrate upon David's bright plans for the future: the car he would give her as a wedding present, gifts, trips, no responsibility. But her thoughts constantly strayed away, and she thought unasily of what might have happened in her absence. She must get back, quickly; she became more and more uneasy, and tried to find excuses why she must leave.  
In spite of his pleading that he had made plans to take her out to dinner, she shook her head. She wouldn't tell him that she wanted to hurry home to prepare Tom's dinner. She denied, even to herself, that the time spent at the dinner table, with Tom opposite and Betsy in her high chair, was more appealing than the gay evening David promised.  
"Why?" she asked herself. Why? "I must get back to Betsy," she told David.  
Was his response impatient? Would he resent her love for Betsy and regard Betsy as another man's child?  
Everything was wrong with this afternoon which had begun so happily.  
They parted, David silent and hurt because she was leaving him, annoyed because she refused to let him accompany her to the bus stop, angry that she would not say when she would meet him again. (To Be Continued)
